## **EPI-USE SAP/HR Implementation Services**

### **Put the EPI-USE Advantage to Work for You!**

The EPI-USE Advantage is quality people with the right combination of HR process knowledge and SAP technical knowledge to create an efficient implementation environment for your SAP/HR Solution.

In addition, The EPI-USE Advantage Toolkit is a suite of SAP/HR accelerators. These tools cover the full system life cycle from development through maintenance and support. Data Sync Manager, Query Manager, and Variance Monitor set an industry standard for ease of use, accessibility, and functionality.

#### **Why Choose EPI-USE?**

**Focus:** EPI-USE specializes in the HR module of SAP and has completed an abundance of global implementations since our inception in 1984. The focus and commitment of our team brings maximum HR exposure to your organization. We offer a fully integrated solution—from planning and scoping, to staffing, project management, integration, training and documentation.

**Quality:** Because SAP/HR is unique in its flexibility and sophistication, the implementation team must be experienced and able to articulate the best practices already developed and benchmarked at existing clients. EPI-USE knows how to fully maximize the power inherent in the SAP HR engine by leveraging the knowledge in the EPI-USE family of consultants and customers. Our culture of information sharing and training reinforces our commitment to quality and the continued success of each implementation we touch.

**Accountability:** EPI-USE has assembled the most capable group of SAP HR specialists in the world. Our consultants are highly skilled, creative problem solvers who have made innovation their signature and your enterprise personnel their most important priority. We understand SAP/HR's organizational impact and the personal nature of the data and processes we implement. We take accountability for the safety and security of these elements and we honor our promise to make you successful with SAP/HR.

**Flexibility:** The technical strength of EPI-USE consultants in your court enables you the power to customize your implementation while maintaining SAP standards. The deep skill set allows you to unlock SAP's functional dominance in the HR space.

**People:** EPI-USE consultants are the biggest reason for our customer's success today. Not only are they technically advanced with many years of experience, but also they are easy to work with and unflinchingly go the extra mile on a consistent basis. The approachable nature of EPI-USE consultants ensures that the customer and consulting teams merge seamlessly to make your implementation successful.

The EPI-USE Advantage Toolkit, coupled with EPI-USE consultants equal the most powerful advantage available in the market. Don't delay, contact EPI-USE to discuss your HR implementation needs today!

**ACCOUNTABLE • PEOPLE • FOCUSED • QUALITY • FLEXIBLE**

*"I have worked with EPI-USE consultants on a number of project assignments including highly critical missions. On every occasion, EPI-USE made a very positive impact. I believe this success is largely down to two factors. Firstly, the commitment to the customer's success and secondly, a company culture of knowledge sharing which is second to none."*
