UKG Advisory Services

Over the years, we have found that sometimes the best value can be realized in taking a step back and evaluating an organization's current state. Our advisory services team works with you to identify gaps and develop a strategic approach to build a better labor management platform that merges Human Capital Management practices with software application utilization.

- Our Gap Analysis and Solution Recommendation services help identify suboptimal processes and functionality gaps and develop a roadmap to optimize areas in need of improvement. The improvements could be software or process-related; our 3 decades of experience gives us the ability to examine your organizational processes holistically and make recommendations.
- Change Management and User Adoption consultants work with your end users to identify and mitigate roadblocks to user adoption and satisfaction.
- Staff Augmentation can provide a bank of hours, ongoing support, or additional resources for your project.
- Experienced Project, Program, and Engagement Management services provide seasoned expertise and act as trusted advisors to ensure your goals are met and your project is a success.

Your team integrated so successfully with ours that it was hard to know who was a consultant and who was an employee. — **Client project stakeholder**
