

EPI-USE Plus offers clients innovative solutions and delivery models that go beyond our vast experience with SAP products. We start with a foundation of deep industry experience and best practices with extensive capabilities in systems design, deployment, and support. From there, we combine our team's individual attributes and strengths, a spirit of independence, and a collaborative style that makes our team the unique global market leader we are today.

Our unique blend of experience and working style form the basis upon which EPI-USE Plus delivers preconfigured SAP-certified, industry specific solutions, as well as industry leading line of business solutions that can be deployed across industries and tailored to any client size.

The strengths we built, the skills we deliver

We deliver value through innovation: every project, every solution, every time

Trusted Global Relationships

EPI-USE Plus has a trusted global presence, and has earned a reputation for successfully and cost-effectively addressing challenging technology issues with some of the largest and most respected multinational corporations. We provide solutions to private, public and government sector agencies worldwide.

Service Beyond the Extra Mile

Our services are scalable and adaptable. Our approach combines technical mastery, innovation and "get-up-and-go" energy to make sure every project is completed to every stakeholder's expectation, on time and within budget.

SAP Technology Leader

EPI-USE Plus is a technology leader and "go-to" organization for SAP. We offer best-in-class cloud-based solutions, along with best practices and integrated business process across the entire SAP suite with world-class experience.

Business Excellence

We match the most capable and highly experienced consultants to each initiative; a top-priority for EPI-USE Plus. We help clients achieve higher levels of performance and results, and reduce costs with a focus on design thinking, Lean and Agile techniques and delivery frameworks.

EPI-USE Plus Team Project Implementation

"We are fortunate to work with resources from EPI-USE to help achieve those goals. They continue to be one of our most valuable, reliable and trusted resources and their expertise and skill continuously benefit our organization." - Government

"With the successful EPI-USE implementation of the SAP ECC Upgrade and Merger/Acquisition, our company is accelerating on the path to more standardized and improved business processes, more robust system functionality and workforce productivity." - Manufacturing Industry

"EPI-USE has been a critical partner to our company over the last 3 years as we have accelerated our transformation to be the pre-eminent talent advisory organization. EPI-USE has grown to really understand our firm's business and has brought their skills and passion to our aggressive implementations the same way our company team has. The partnership with EPI-USE has been a key enabler of the firm's success!" - Professional Services Industry

"The EPI-USE partnership already has a reputation amongst peers as one that is transforming how higher education does business. Their ability to enable streamlined business process with the newest technology user experience is unparalleled. Rarely does a partnership move beyond implementation into something that is truly strategic, supporting university core mission in building a student-development innovation center. The EPI-USE group of companies uses their broad industry experiences and technology vision to drive higher education into the future. I look forward to their continued partnership and where it will drive our University." - Higher Education
